About Xavier University of Louisiana

Being America's only historically Black and Catholic University is only the first among many distinctions that have set Xavier University of Louisiana apart for more than nine decades. Despite its relatively small size (3,300 students), Xavier is a nationally recognized leader in the STEM and the health sciences, producing more African American students who graduate from medical schools each year than any other university in the United States. Its College of Pharmacy is among the top producers of African American pharmacists.

Its liberal arts-based programs in such areas as art, business, education, psychology, and political science – as well as recent additions in bioinformatics, data science, neuroscience, crime and social justice, and jazz studies – offer students an unbeatable combination of traditional classroom study, hands-on research, service-learning opportunities, and life experiences. The winning Xavier formula to provide students with a well-balanced curriculum and an environment that nurtures their intellect and feeds their souls.
